Designing with Grids

FA-DE-03 · Visual design · Beginner · 5 lessons · 56 minutes planned study

A practice companion

Five spaces to try, observe and reflect. These are authored workbook prompts, rather than produced videos or a locked lesson-name sequence.

This course is preview only in the demonstration.

Self-initiated studio project. Curriculum fixtures; no certification or instructor review is represented.

FA-DE-03 · Practice 01

Find a page structure

Try the exercise

Draw two columns on a page. Place one title and a short paragraph.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-DE-03 · Practice 02

Use alignment

Try the exercise

Align a heading, paragraph and image to one shared edge.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-DE-03 · Practice 03

Set a type hierarchy

Try the exercise

Set one heading, one subheading and one paragraph. Give each a distinct role.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

Let space organise

Try the exercise

Compare the same layout with compact and generous spacing. Explain which reads clearly.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-DE-03 · Practice 05

Make one useful page

Try the exercise

Combine your grid, hierarchy and spacing in one event information page.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.
