Light for Motion

FA-FI-02 · Filmmaking · Beginner · 5 lessons · 74 minutes planned study

A practice companion

Five spaces to try, observe and reflect. These are authored workbook prompts, rather than produced videos or a locked lesson-name sequence.

This course is preview only in the demonstration.

Self-initiated studio project. Curriculum fixtures; no certification or instructor review is represented.

FA-FI-02 · Practice 01

Observe available light

Try the exercise

Record how one object changes beside a window at two times of day.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-FI-02 · Practice 02

Compare light direction

Try the exercise

Make a short shot with side light and another with front light. Compare shadow and form.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-FI-02 · Practice 03

Shape contrast

Try the exercise

Place a white sheet beside your subject. Record the scene with and without it.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-FI-02 · Practice 04

Keep light through motion

Try the exercise

Move the camera slowly while keeping the subject within the same light. Note what changes.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

ACADEMY

FA-FI-02 · Practice 05

Make a light study

Try the exercise

Sequence three short shots with a consistent light direction. Explain your choice.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.
