Composition Essentials

FA-PH-01 · Photography · Beginner · 6 lessons · 62 minutes planned study

What you will make

Make a six-image series that uses subject placement, balance and negative space deliberately.

Before you begin

No prior course required. Bring a phone or camera, one object and available light.

Lesson 01: 8 minutes planned study. Produced video: 30 seconds. Later lessons are written practice prompts here; videos have not been produced for them.

Self-initiated studio project. Curriculum fixtures; no certification or instructor review is represented.

FA-PH-01 · Practice 01

See the edges

8 minutes planned study

Try the exercise

Make two photographs of the same object. In the first, place it in the centre. In the second, move it toward one edge. Compare what changes.

Example A: subject at the centre.

Example B: subject toward an edge.

Generated concept photograph for instruction; not learner work.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-PH-01 · Practice 02

Find the subject

10 minutes planned study

Try the exercise

Choose one subject. Make three photographs that keep the subject clear while changing the background. Write what helped your eye find it.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-PH-01 · Practice 03

Build visual balance

12 minutes planned study

Try the exercise

Use two objects with different visual weight. Try a close arrangement and a wide arrangement. Compare where your eye pauses.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-PH-01 · Practice 04

Work with negative space

9 minutes planned study

Try the exercise

Give one subject a little empty space, then a lot. Keep light and viewpoint consistent. Describe what the space contributes.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-PH-01 · Practice 05

Change the point of view

11 minutes planned study

Try the exercise

Photograph one object from eye level, above and low down. Keep it recognisable. Choose the view that best communicates its shape.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.

FA-PH-01 · Practice 06

Make a small series

12 minutes planned study

Try the exercise

Make a six-image series that uses subject placement, balance and negative space deliberately. Sequence the images and explain one decision in each.

What changed?

My next decision

Keep your work. In the app, the lesson completes only after the explicit exercise-completion action.
